 $Consult\ CAGI\ website\ for\ a\ list\ of\ participants\ in\ the\ third\ party\ verification\ program: \\ \underline{WWW.cagi.org}$

- a. Measured at the discharge terminal point of the compressor package in accordance with ISO 1217, Annex E; ACFM is actual cubic feet per minute at inlet conditions.
- b. The operating pressure at which the Capacity (Item 8) and Electrical Consumption (Item 8) were measured for this data sheet.
- c. No Load Power. In accordance with ISO 1217, Annex E, if measurement of no load power equals less than 1%,
- d. Tolerance is specified in ISO 1217, Annex C, as shown in table below:

NOTE: The terms "power" and "energy" are synonymous for purposes of this document.

Member

| Volume Flow Rate at specified conditions | | Volume Flow Rate Specific Energy Consumption | | No Load / Zero Flow Power |
