

Bridging The Gap

A bridge allows you to cross boundaries into new territories, to reach new places, explore and continue on your journey. The Extended Guardian is designed to help bridge the gap for your compressed air needs; taking you to additional 5 years of warranty, performance and availability.

With the Extended Guardian, you have the advantage of an additional 5 years added onto your original warranty without any extra costs and the certainty of new life for your compressor including the latest technologies and updates.

EXTENDED GUARDIAN

Extended Guardian Benefits:

- ▶ Flexible payment schedule
- ▶ Further reduction of administration costs
- ▶ Maintenance planning and recommendations for maximum efficiency and reliability
- ▶ No additional training or tooling costs
- ▶ Active system & performance follow-ups
- ▶ Additional service warranty
- ▶ Stable pricing throughout the period and flexible payment

The Extended Guardian

You will enjoy a warranty extension for a full 10 years with risk free operation, as well as a machine revitalization process along the way. This will restore your machine to maximum performance and reliability, further reducing your compressed air system costs and eliminating production downtime.

Are you concerned with high breakdown costs and production uptime?

Our technicians can spot a developing problem and propose a course of action to prevent a future breakdown and unexpected downtime.

Additionally, our customers with Guardian coverage experience, on average additional 16 days of uptime each year.

How do you get more out of your QGD and QGDV compressors?

With the Extended Guardian, you will give new life to your compressors by upgrading them to the newest standards and technology.
