Panini Check Scanner Cleaning Card

Front of Pouch

PANINI Check Scanner Cleaning Card

Use on Panini Check Scanners to ensure consistent check processing on every scan.

This product is specifically designed to remove endorsement ink residue, paper flash, and other debris left behind during normal operation from cameras and pathways within Panini Check Scanners.

For more information regarding the cleaning of your scanner, please refer to your Operator Manual.

This is the only product approved for use in Panini Check Scanners. Use of non-approved product may void warranty.

Back of Pouch

Recommended Usage:

It is recommended to run the cleaning card through the check scanner once a week to remove ink, dust, and dirt buildup from the rollers and image cameras.

Directions:

1. Remove the ink cartridge or franking roller from the machine if present.
2. Start a document feeding application, i.e. your capture application, Panini MyDemo / Multi Demo, or the Panini Avantor Scanner Management solution.
3. Insert the cleaning card along the arrowed sides into the Panini Check Scanner 3-7 times, rotating the card along the direction of the arrows so the cleaning card is inserted each time with a different orientation.
4. Cancel the application, discard the used cleaning card, and replace the ink cartridge or franking roller if needed.

Note: the cleaning card is not intended to clean the sensors, clean the ink cartridge, or replace the cleaning procedures outlined in the operator manual.
