

Panini and KICTeam, Inc. announce the release of a Panini Waffletechnology Check Processor Cleaning Card for use in the Panini My Vision X[®] Check Scanner.

Auburn, ME., October 1, 2007 – Panini & KICTeam, Inc. are pleased to announce the release of the Panini Waffletechnology Check Processor Cleaning Card. This product is designed to work with Panini My Vision X[®] Check Scanners through strategic positioning of the Waffletechnology design. Panini and KICTeam extensive co-development project has produced a method of quickly cleaning critical camera lenses and pathways within the device, used by the banking industry under the Check 21 laws and provisions.

“In a distributed capture environment, cleaning the check scanner is very important,” says Doug Roberts, President, Panini North America. “This new product provides end-users with a simple first step to cleaning the My Vision X[®].”

Peter Klein (President of KICTeam) says “The Panini Waffletechnology Check Processor Cleaning Cards will enhance the ability of financial institutions to process checks, by maintaining the scanning devices. Waffletechnology continues to provide a simple means to do a necessary job.”

About KICTeam

Founded in 2008, KICTeam is the world leader in the manufacture of cleaning cards. Established as a result of the merger between KIC Products, founded more than 15 years ago, based in Auburn, Maine and Clean Team Company, founded in 1990 and based in San Diego, CA. KICTeam provides innovative and cost efficient solutions to a diverse marketplace. The company’s product line include Waffletechnology[™]-based (patent pending) products for magnetic card readers, bill acceptors, optical readers, smart card readers, thermal printers, ID card printers, ATMs and point of sale (POS) thermal credit and check readers. These American-made cleaning products are constructed with the finest raw goods available and produced with state-of-the-art equipment to ensure that all products manufactured are the very best on the market.
