**Keeping Check Scans Clean with a Cleaning Card
for Panini's I:Deal™ Check Scanner.**

All Industries that receive or accept checks as payment.

AUBURN, Maine—October 19, 2009— Panini & KICTeam, Inc. are pleased to announce the approval of the Panini Waffletechnology Check Scanner Cleaning Card for the Panini I:Deal™ Check Scanner. The removal of built-up paper dust and endorsement ink residue from the scanner lens is critical to maintain consistent scans with any check scanner. This product, originally designed to work with Panini My Vision X® and Vision X® Check Scanners, is now available for use on the new Panini I:Deal™ as well. This latest more versatile design has the I:Deal™ name on the pouch to indicate it is the next generation cleaning card. The I:Deal™ Check Scanners, designed to affordably help small businesses take advantage of the Check 21 laws and provisions, now has a method of quickly cleaning the critical camera lens and check travel pathways within the device.

“We realize the importance of a clean quality scan and understand that checks carry dust and ink particles directly into the scanner,” says Doug Roberts, President, Panini North America. “The KICTeam cleaning card product has done a fine job on our desktop check scanners. The approval of the Panini Waffletechnology Check Scanner Cleaning Card for the I:Deal™ check scanners offers our customers a simple and effective cleaning solution.”

“The Panini Waffletechnology Check Scanner Cleaning Cards quickly and efficiently removes dirt, dust and ink particles that accumulate through normal use and inhibits proper scans,” said Debra Ross, Global Product Manager KICTeam. “Extremely easy to use, just remove the product from the pouch and run it through the scanner as you would an ordinary check. In order to realize the substantial time and money saved by in-house check scanning, the units will need to be cleaned to maintain clear, unobstructed images of the checks. Waffletechnology continues to provide a simple means to do a necessary job.”

About Panini

Founded in Turin, Italy, Panini has enabled clients to capitalize on shifts in the global payments processing market for more than sixty years. Panini has a rich history of technology innovation, leveraging the company's expertise in research & development. Panini's market leading solutions are based on state-of-the-art engineering resources
