

July 2011

Magner Corporation has been very pleased with the response KICTeam has provided in developing a cleaning solution for our currency counter equipment. After many tests to develop and qualify a product, we are pleased to offer an approved Magner Corporation Currency Counter Cleaning Card which features the Waffletechnology® design.

Why use Magner Currency Counter Cleaning Cards with Waffletechnology®?

- Insure optimum accuracy and performance
- Reduce equipment downtime and maintenance issues
- Prolong equipment life and reduce capital expenditures

Our Magner Corporation Currency Counter Cleaning Card has been approved and is endorsed for regular use on our equipment in order to clean the rollers and counterfeit detection lenses. Frequent cleaning maintenance is recommended for optimal performance, function and reliability.
