

# Stationary Printer Cleaning

Cleaning Pens · Swabs · Cards · Kits

## Printhead Cleaning Film

When used in conjunction with isopropyl alcohol, the film is ideal for applications such as: printing using resin based ribbons, high volume printing, harsh environmental conditions and high resolution printing. Available in 3 packs and 12 packs with or without the Datamax-O'Neil branded logo. Contact us for more information!

These products are designed to safely and effectively remove all contaminants from printheads, paper guides and paper paths. Regular use of these types of products will improve print quality, increase output, extend the machine life, printer reliability and performance. Cleaning products should be a part of every consumables quote! Trying to get into a new account? Offer them a complimentary cleaning of their equipment! This kit is a MUST for today's consumables salesperson.

# Portable Printer Cleaning

## Cleaning Cards · Kits ■ ■ ■

Regular use of Datamax-O'Neil cleaning products will:

- Remove adhesive residue, dirt, and other contaminants that can cause label jams and lead to printer component damage
- Extend the life of the thermal printhead and rollers
- Keep your printed image clean and crisp Paper Rolls
- Cleans printhead, paper guides and paper path

Did you know that over 80% of printer and reader failures are linked to poor maintenance? The not-so-hidden costs of neglect include lost production, customer dissatisfaction, frequent service calls, and premature equipment replacement. Datamax-O'Neil cleaning products are tested and approved to offer reliable performance and consistent quality.

Datamax-O'Neil cleaning cards are designed to safely and effectively remove dirt and other contaminants from the thermal printhead, rollers and paper path resulting in clean, crisp image output — every time.

When using adhesive based supplies in your printer, it is very important to clean the printhead and rollers on a regular basis. Datamax-O'Neil offers an easy-to-use, 2-step Cleaning Kit that effectively removes dirt, adhesive residue and other contaminants while giving the entire paper path a thorough cleaning.

### for non-adhesive applications (paper rolls only)

Size	Printer Model	Part Number	Quantity
