

PRODUCT APPROVAL: LG Electronics for Device Wipes

September 2014

This memorandum serves as verification that LG Electronics has confirmed that the KICTeam Device Wipes are safe for use on their equipment:

“The wipes will be ok, if they do not contain alcohol, thinners, or benzene.”

Tobin Costante | National Technology Manager
Business Solutions Division
LG Electronics Canada Inc
20 Norelco Drive, North York, ON M9L 2X6

KICTeam hereby certifies that our proprietary Device Cleaning Wipes* do not contain alcohol, thinners or benzene and have been verified as safe and approved for use on larger devices and electronics such as retail POS screens, registers, digital menu boards, TVs, monitors, headphones/mics, as well as plexi-glass, polycarbonate and any other typical screens, lenses or sensor covers.

This product meets all regulatory compliance standards and is 100% safe when used as directed.

Products covered under this certification include:

K2-W02-DVC
K2-W01-DVC
K2-WDVCT50
K2-WDVCT100

Sincerely,

A handwritten signature in black ink, appearing to read 'Glen Bailey'.
