

HEAVY DUTY HEAVY DUTY COMPRESSORS

Compressors for the Heavy Duty Industry

DENSO is the largest supplier of A/C compressors in the world. In addition to light duty applications, we offer remanufactured and factory new compressors for the construction and agriculture market.

Our 2011 offering provides coverage for John Deere, Hino and Sprinter. Also new is our coreless program for Hino remanufactured compressors. We have eliminated the core charge and all the costs associated with them. Now the DENSO program is more convenient and attractive than ever.

Whether factory new or remanufactured, our compressors are manufactured to meet DENSO's unsurpassed reputation for technological superiority, high output, extended reliability and reduced noise vibration.

Converting Sprinter to New

DENSO is pleased announce that we now offer our high-quality Sprinter compressor completely factory new for model years 2003-2006.

Program Highlights

- 16 factory new compressors for John Deere 10PA applications.
- 7 remanufactured compressors covering the most popular Hino trucks, model years 1987-2009.
- All remanufactured compressors are coreless.

The DENSO Compressor Difference

- High output
- Extended reliability
- Exact fit
- Unmatched reliability
- Quiet, efficient performance
