Quality Comes in All Shapes and Sizes—But Just One Color.

Quincy Has the Compressed Air Solution for Your Application

Since 1920, Quincy’s trademark blue compressors have been hard at work building our company’s reputation for quality and performance in some of the world’s most demanding applications and harshest environments.

We’re Still Making History

Today, you’ll find that same leadership in Quincy’s next-generation compressed air solutions that feature everything from smart controls to green technologies. We know that your company is counting on our reputation. That’s why every Quincy product is designed, constructed and proven to deliver exceptional customer value before it is worthy of wearing the Quincy name.

Our Promise to You

As a customer, you can always count on Quincy for a low cost of ownership through stable air pressure, easy maintenance and longer equipment life. And we back it all with some of the strongest warranties in the industry. No shortcuts and no substitutions. That’s the quality of Quincy.

The Quincy QGS Series features cutting-edge technologies to meet the demands of today’s rotary screw compressor applications. Our QGS Series offers all the reliability you’d expect in a Quincy with many of the features, benefits and advantages of larger compressed air systems. The QGS Series is designed to suit your application at a price that defines value.

- **Greater Installation Flexibility**
  Small footprint design operates with reduced noise and vibration levels making it suitable for most applications

- **Impressive Standard Features**
  Units come well equipped with premium components and industry leading extended warranty programs

- **Lower Maintenance Costs**
  Easily monitored units feature convenient component access and a spin-on filter to reduce downtime

- **True Blue Warranty**
  Industry leading extended warranty option protects airend for five years with authorized distributor start up
Quincy Serviceability

Quincy compressors are designed with you in mind. Working closely with our customers, we’ve designed our QGS series to be both dependable and easy to maintain over an extended life of your equipment.

Lower Maintenance Costs
Helpful design features “constant view” fluid monitoring, single panel access to consumable components and a spin-on filter to speed maintenance tasks.

Reduced Downtime
Genuine Quincy replacement parts are readily available ensure efficient and reliable performance with minimal downtime.

5-Year Extended Warranty
Every Quincy QGS comes with the optional “True Blue” 5-year extended warranty with authorized distributor start up.

Online Visualization Capability is Standard
The Standard Controllers on all QGS 20-100 hp allow you to freely monitor your Quincy compressor from anywhere you have Internet access. Just type in and IP address into your computer browser and your compressor’s status will be displayed in a read-only format.

QGS 5-7.5 HP Belt Drive Rotary Screw Compressor

Quincy’s QGS 5-7.5 hp rotary screw compressors are designed for small to medium-sized applications ranging from paint booths and component assembly to long-running industrial installations. Packed with premium standard features, these turnkey units are the perfect solution for small footprint, quiet operations that require clean, dry compressed air. Standard units are stocked at 150 PSI.

**Standard Features**
- Start/stop controls
- TEFC drive motor
- Wye-Delta starting
- 8000 hour synthetic fluid
- Low sound enclosure
- 5 Year True Blue warranty

Note: Separate electrical connection required for dryer units (115/1/60)

**Optional Features**
- 60 gallon horizontal air receiver
- Mounted 39°F dewpoint refrigerated air dryer

QGS 10 | 15 | 20s HP Belt Drive Rotary Screw Compressor

The QGS 10-20S Series of rotary screw compressors is available in three basic configurations: base mount, tank mount and tank mount dryer. The advanced Infologic² Basic Microprocessor Controller is standard on each compressor with a separate digital controller on the mounted dryer (if applicable). Standard units are stocked at 125 PSI with an available pressure change kit to optimize the unit for available pressures of 100, 150 or 175 PSI. (Field)

**Standard Features**
- Infologic² Basic controller
- TEFC drive motor
- Wye-Delta starting
- 8000 hour synthetic fluid
- Low sound enclosure
- 5 Year True Blue warranty

Note: Separate electrical connection required for dryer units (115/1/60)

**Optional Features**
- 120 gallon horizontal air receiver
- Mounted 39°F dewpoint refrigerated air dryer
### QGS 20 | 25 | 30 | 40 HP Belt Drive Rotary Screw Compressor

The QGS 25-30 Series of rotary screw compressors is available in four basic configurations: base mount, base mount dryer, tank mount and tank mount dryer. The advanced Infologic² Microprocessor Controller is standard on each compressor. Standard units are stocked at 125 PSI with an available pressure change to 100, 150 or 175 PSI.

**Standard Features**
- Infologic² Basic controller
- TEFC drive motor
- Wye-Delta starting
- 8000 hour synthetic fluid
- Low sound enclosure
- 5 Year True Blue warranty

**Optional Features**
- 120 gallon horizontal air receiver
- Integrated 39°F dewpoint refrigerated air dryer

Note: Separate electrical connection required for dryer units (115/1/60)

### QGS 40-50C HP Gear Drive Rotary Screw Compressor

The QGS 40-50 Series of rotary screw compressors is available in two basic configurations: base mount, base mount dryer. The advanced Infologic² Microprocessor Controller is standard on each compressor. Standard units are stocked at 125 PSI (132 PSI Max).

**Standard Features**
- Infologic² controller
- TEFC drive motor
- Wye-Delta starting
- 8000 hour synthetic fluid
- Low sound enclosure
- 5 Year True Blue warranty

**Optional Features**
- Integrated 39°F dewpoint refrigerated air dryer

Note: Separate electrical connection required for dryer units (230/1/60)

### QGS 75-100 HP Gear Drive Rotary Screw Compressor

The QGS 75-100 Series of rotary screw compressors are designed for medium to large-sized applications including various industrial installations. The advanced Airlogic² Microprocessor Controller is standard on each compressor. Standard units are stocked at 125 PSI (132 PSI Max) and 460/3/60 electrical.

**Standard Features**
- Airlogic² controller
- TEFC drive motor
- Wye-Delta starting
- 8000 hour synthetic fluid
- Low sound enclosure
- 5 Year True Blue warranty

Compressor Features and Benefits

- **Compact Design**
  Small footprint increases possible points of installation and operation

- **TEFC Motor**
  Protects motor from dirt, moisture and weather

- **Pre-Package Filtration**
  Ensures low pressure drop while preventing oil contamination

- **Wye-Delta Starting**
  Soft-start motor to reduce energy use and component wear

- **V-Belt Drive Horsepower**
  Offers greater horsepower in less space without compromising reliability

- **Gear-Driven Horsepower**
  Uses 3% less energy than traditional belt drive and reduces maintenance costs (QGS 40-100)

- **Upward Package Air Discharge**
  Recovers/removes heat via convenient ducting path

- **Auto Restart**
  Smart controls track starts to reduce unloaded run time

- **Quiet Operation**
  Low sound enclosure (63-71 dBA) and vibration isolation reduces noise levels

- **Aircooled Aftercooler**
  Ensures proper air temperature at point of delivery

- **Quality Controls**
  Microprocessor controls provide digital monitoring, programming and control in compliance with UL/cUL standards (QGS 10-100)

- **Pre-Filled Lubricant**
  Unit includes over 8,000 hours of QuinSyn-Plus® to ensure proper component lubrication

- **Start/Stop Controls**
  Start/stop and auto dual controls ensure dependable air delivery on demand (QGS 5-7.5)

- **High Efficiency Airend**
  Improves overall energy efficiency to lower cost of ownership

- **Integrated Dryers**
  Oversized dryers provide onboard dew point and freeze protection (optional)

- **AMC Cooling**
  High flow, low consumption fan with wide heat exchange surface improves efficiency, offers low oil/motor temperatures, enhances safety and increases operating life

- **True Blue Extended Warranty**
  Industry leading warranty protects airend, motor, separator tank and cooler/heat-exchanger for five years with an authorized distributor start up
