

Precision Delivers Performance

A Swiss watch is designed and built to precise specifications to run at peak performance. Springs and gears are tooled in exact detail to create a premium timepiece. The same is true for your Quincy Compressor. Genuine Quincy parts are designed and produced to the exact specifications of your compressor, to assure optimum durability, reliability, efficiency and performance.

The Parts Guardian plan provides you with all the genuine Quincy parts you need at a predetermined cost. And because the Parts Guardian helps you to plan maintenance on time, the risk of a costly breakdown is reduced. This plan allows you to lock in today's prices for tomorrow's maintenance needs.

Parts Guardian Benefits:

- ▶ Reduced administration costs
- ▶ Flexible payment schedule
- ▶ No need for long-term inventory
- ▶ Reminder for maintenance execution
- ▶ Tomorrow's parts at today's rates
- ▶ Increased performance and reliability of your compressor

The Parts Guardian

How much would 16 days of additional availability benefit you?

This plan pro-actively ensures higher uptime for your production with highest energy efficiency and stable maintenance expenses.

Customers who maintain their compressors on time, with planned interventions, achieve an average of 16 days of additional uptime per year. How much would that benefit you? Breakdowns are typically more costly and will likely have an impact to your production process.

Looking for more efficient planning?

We keep track of your maintenance needs and deliver the parts to you when the time is right, helping you keep your maintenance scheduling on track.
