

Maintain Uptime

Upgrade before it's too late

The Thermo Scientific™ Nicolet™ X700 FTIR Spectrometers are approaching the end of guaranteed support on December 31st, 2020. Upgrade now to avoid downtime. The Thermo Scientific™ Nicolet™ iS50 FTIR Spectrometer, the newer version of your X700 series instrument, can boost lab productivity while maintaining uptime.

Labs will hit the ground running using the same software and libraries from the X700 instrument. Transfer most accessories, macros and beamsplitters to further ease the transition. With touchpoints that enable automated set-up and operation of multi-range experiments, the Nicolet iS50 boosts productivity. Multiple modules accommodate measurements from far-IR to visible providing complete material analysis capabilities therefore expanding instrument use.

Why you should upgrade now?

- 1 X700 series instruments are approaching retirement and end of guaranteed service for hardware and software
- 2 Save 25% through December 31st
- 3 Transfer any existing service contracts to your new iS50 instrument
- 4 Upgrading is easy, transfer most accessories and macros

Thermo Scientific Nicolet iS50 FTIR Spectrometer

Maintain uptime and save 25% for a limited time.
